

# MODERN COVERT OPERATIONS

BY: HUMAN FREE WILL 501 (c)(3)

## Covert operation

A **covert operation or undercover operation** is a military or police operation involving a covert agent or troops acting under an assumed cover to conceal the identity of the party responsible.<sup>[1]</sup> Some of the covert operations are also clandestine operations which are performed in secret and meant to stay secret, though many are not. (PUBLIC AND PRIVATE ROLES)

TECHNIQUES USED TO SILENCE CRITICS, TED GUNDERSON, FBI SENIOR SPECIAL AGENT IN CHARGE (RET)

There are two levels of **INVESTIGATIVE OPERATIONS** in the U.S. Intelligence Agencies:

1. The **OVERT OPERATIONS** involve investigators who respond to various federal violations of the law such as: bank robberies, kidnapping, extortion, etc. → They readily identify themselves to the public.
2. The **COVERT OPERATION** involves those who never identify themselves and are involved in **HARASSING and TARGETING** everyday citizens (behind their back).  
Agencies can leverage existing federally sponsored community-policing organizations as cover

## Controversies

Further information	Country	Approximate time period	Details
ATF fictional sting operations	USA	? – 2014	Government agents enticed targeted victims and incited them to commit crimes of a type and scale calculated to procure specific sentences, for which they would then be prosecuted and jailed, typically for around 15 years.
UK undercover policing relationships scandal	UK	? – 2010	Undercover officers infiltrating protest groups, deceived protesters into long-term relationships and in some cases, fathered children with them on false pretences, only to vanish later without explanation. Units disbanded and unreserved apology given as part of settlement, noting that the women had been deceived. Legal action continues as of 2016, and a public inquiry examining officer conduct, the Undercover Policing Inquiry, is underway.

IF YOU ARE A VICTIM YOU WILL BE MONITORED **24/7 365** WITH NO RECOURSE YOU WILL HAVE ALL OF YOUR COMMUNICATIONS BLOCKED OR CENSORED BE SUBJECTED TO “SOCIAL EXPERIMENTS” FOR THE REST OF YOUR LIFE

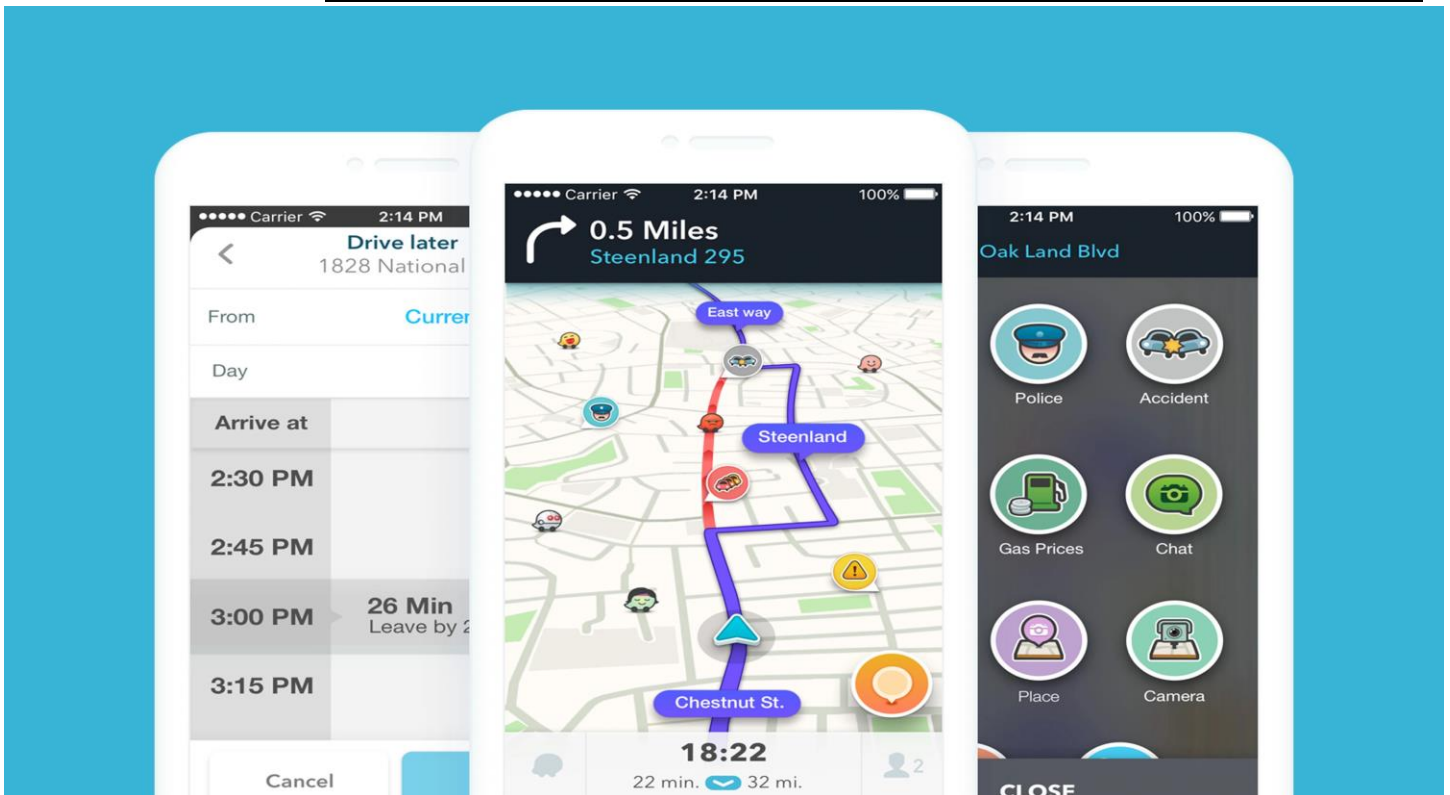

ANY TARGET WHO IDENTIFIED OR ATTEMPTED TO REPORT ABUSES AND TORTURE WILL BE ACCUSED OF (INSERT SOMETHING NEGATIVE) → **(BEING MENTALLY ILL)**

**THIS SYSTEM** IS RIPE FOR ABUSE AND COULD LEAD TO THE DESTRUCTION OF THE REPUBLIC BECAUSE NO ONE HAS ACCOUNTABILITY OR JURISDICTION WITH WATCHLISTING

THE CAPABILITY, WITHOUT A WARRANT, TO SEARCH FOR, SEIZE, AND READ YOUR COMMUNICATIONS. *ANYONE'S COMMUNICATIONS AT ANY TIME.*

THAT IS **THE POWER TO CHANGE PEOPLE'S FATES.**

MADE POSSIBLE BY **NEW COMMUNICATIONS AND SURVEILLANCE TECHNOLOGIES**

**THE TARGETED INDIVIDUAL WILL BE USED IN THEATER**

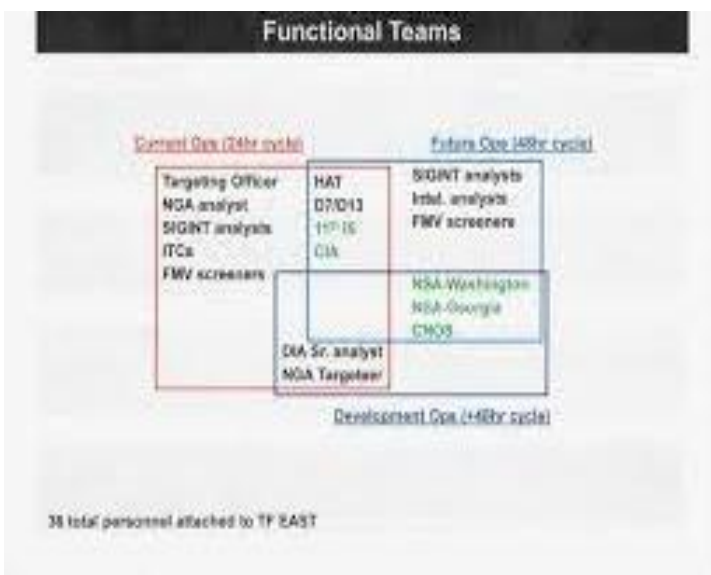

IMAGE QUALITY HACKED

24/7 365 REAL TIME MONITORING  
**YOU ARE AN AVATAR** IN A PROGRAM (LIKE WAZE) WHERE OTHER MEMBERS OF THE COMMUNITY HAVE AVATARS (MONITORED FROM THE FUSION CENTER) **AND ARE FORCED INTO TIMED SITUATIONS** FOR WHAT IS CALLED "STREET THEATER" (PERFORMANCES OR **STAGED SET UPS**)

EXAMPLES: INSURGENCIES, ESPIONAGE, TERRORISM, AND DRUG BUSTS

**INFORMATION OPERATION TEAMS** WILL BE USED TO SPREAD **DISINFORMATION**

# THE ENDURING HUMAN HUNTING OPERATION FOR MADE-UP "ENEMIES"

**IDENTITY INTELLIGENCE (I2)** ESTABLISHES A TARGET'S "PATTERN OF LIFE" WITH REAL-TIME MULTI-DOMAIN DECISIONS "TO DISCOVER THE EXISTENCE OF UNKNOWN POTENTIAL THREAT ACTORS"

## THE INTELLIGENCE, SURVEILLANCE, AND RECONNAISSANCE (ISR) CYCLE

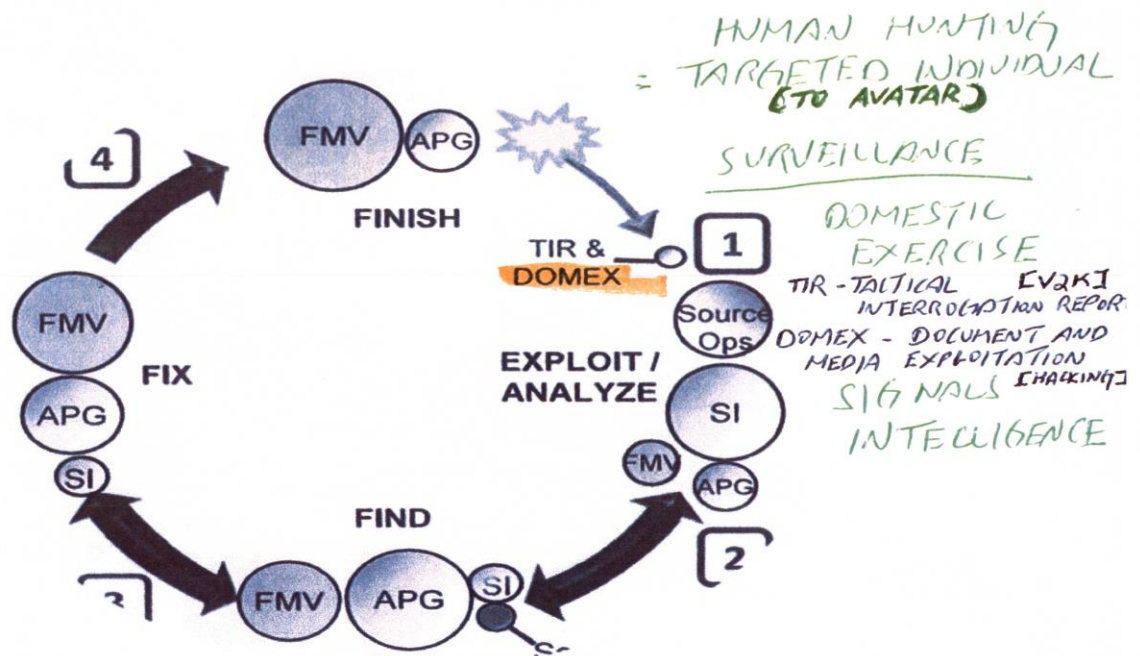

- 1. FIND A PERSON** → WITH MASS SURVEILLANCE TO PLACE ON WATCHLISTS TO EXPLOIT AND ANALYZE **TARGETED INDIVIDUALS** AND THEIR ENTIRE SOCIAL CIRCLE
- 2. FIX A PERSON** → INFORMATION OPERATIONS OR *ENHANCED* INTERROGATIONS TO BE FORCED TO "PERFORM" THE ROLE OF THE WATCHLIST AS: CONFIDENTIAL INFORMANT OR AS **THE MADE-UP ENEMY**  
EXAMPLE: (TERRORIST) WATCHLIST = (MADE-UP) **TERRORIST TO HUNT**
- 3. FINISH A PERSON** → EXTRAORDINARY RENDITIONS ARE "PERFORMANCES" FORCED INTO: *INCARCERATION, INSTITUTIONALIZATION, SUICIDE, OR MURDER*

The Drone Papers: A Visual Glossary

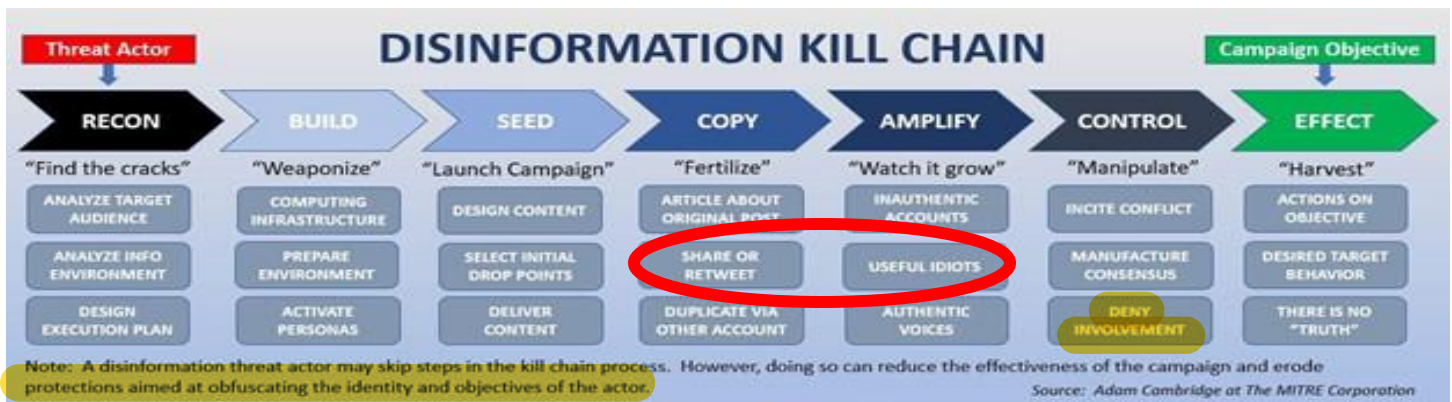

<https://theintercept.com/drone-papers/a-visual-glossary/>

In the end, Intelligence, Surveillance, and Reconnaissance (ISR) is about continuing a cycle: Find a person, Fix a person, Finish them. But there are two other steps in the process: Exploit and Analyze.

Colloquially referred to as "F3EA," the cycle feeds back into itself. The whole process amounts to human hunting. As soon as a target is finished, the hunt for a new target begins.

**COVERT OPERATIONS FORCE EVERYDAY PEOPLE INTO UNUSUAL SITUATIONS**  
**WHEN YOU "STAGE" A TERRORIST ATTACK THIS PERFORMANCE BECOMES "THEATER"**

### Information Types

**Propaganda** has a political connotation and is often connected to information produced by governments (the lines between advertising, publicity, and propaganda are often unclear).

**Disinformation** is manufactured information that is deliberately created or disseminated with the intent to cause harm.

**Misinformation** is false information shared without the intent to mislead.

**Malinformation** is genuine information, typically private or revealing, that may be distributed in a campaign to cause harm to a person's reputation to further the campaign's objective.

**Inauthentic Information** is not transparent in its origins and affiliation. The source of the information tries to mask its origin and identity.

**Authentic Information** is transparent in its origins and affiliation. The source of the information is unhidden.

## Examples

- Black operations
- CIA Project Cherry
- Creation of Bangladesh
- False flag
- Huston Plan
- Iran-Contra affair
- Lavon Affair
- Military Assistance Command, Vietnam – Studies and Observations Group
- Operation Anthropoid
- Operation CHAOS
- Operation Gladio
- Operation Storm-333
- Operation Wrath of God
- Palace Dog
- Project MKULTRA
- Raven Forward Air Controllers
- Vang Pao's clandestine army

## TikTok Listed Who Viewed Gay Videos

BY GEORGIA WELLS  
AND BYRON TAU

For at least a year, some employees at TikTok were able to find what they described internally as a list of users who watch gay content on the popular app, a collection of information that sparked worker complaints, according to former TikTok employees.

TikTok doesn't ask users to disclose their sexual orientation, but it cataloged videos users watched under topics such as LGBT, short for lesbian, gay, bisexual and transgender, the former employees said. The collection of information, which could be viewed by some employees through a dashboard, included a set of affiliated users who watched those videos, and their ID

numbers, they said.

Other topics in TikTok's data set also included lists of users, but the former employees didn't consider those topics to be sensitive. TikTok workers in the U.S., U.K. and Australia in 2020 and 2021 raised concerns about this practice to higher-level executives, saying they feared employees might share the data with outside parties, or that it could be used to blackmail users, according to some of the former TikTok employees.

Many social-media and ad-tech companies infer traits about their users based on online behavior. They use it to select which content or ads to serve to users.

Social-media and ad-tech industry practices, however, Please turn to page A5

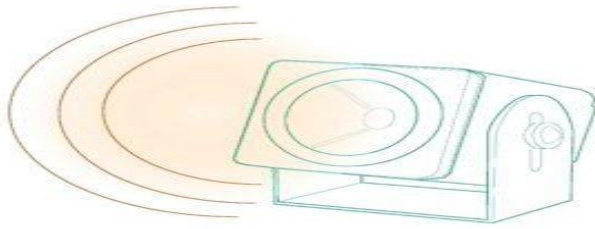

UNCLASSIFIED//FOR OFFICIAL USE ONLY  
**NATIONAL SECURITY AGENCY**  
 FORT GEORGE G. MEADE, MARYLAND 20755-6000

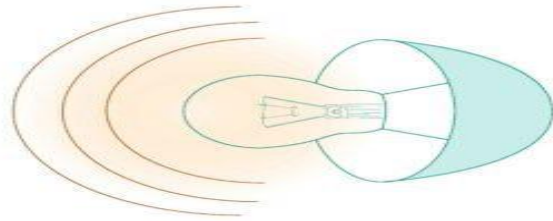

October 16, 2014

(U//FOUO) The National Security Agency confirms that there is intelligence information from 2012 associating the hostile country to which Mr. Beck traveled in the late 1990s with a high-powered microwave system weapon that may have the ability to weaken, intimidate, or kill an enemy over time and without leaving evidence. The 2012 intelligence information indicated that this weapon is designed to bathe a target's living quarters in microwaves, causing numerous physical effects, including a damaged nervous system. The National Security Agency has no evidence that such a weapon, if it existed and if it was associated with the hostile country in the late 1990s, was or was not used against Mr. Beck.

# MODERN COVERT WEAPONS USE FORMS OF DIRECTED ENERGY

LOUDSPEAKER

LIGHT BULB

LONG RANGE ACOUSTIC DEVICE (LRAD)

FLASHLIGHT

*An LRAD is a loudspeaker-like device that emits a focused beam of sound.*

What makes these systems unique is that rather than transmitting sound like a loudspeaker in many directions (similar to the way a lightbulb emits light), LRAD systems transmit sound in a narrow beam (much like a flashlight). **THESE INVISIBLE ATTACKS ARE NOW CALLED HAVANA SYNDROME.**

## SYMPTOMS OF HAVANA SYNDROME

A wide array of varying symptoms have been reported by the afflicted

- **Hearing harsh,** mechanical sounds followed by hearing loss
- Nausea, **severe headaches,** ear pain, fatigue, insomnia and sluggishness
- Experiencing **uncomfortable pressure,** like the sensation of driving fast in a car with one window partially down
- **Vertigo,** vision problems, and difficulty concentrating
- Pain only in **specific locations** — feeling symptoms in certain hotel rooms or apartments but nowhere else
- Sensation of **being hit** with a beam of energy
- Long-term issues, including severe headaches, **insomnia,** and hearing problems in certain instances
- MRIs have **revealed signs of brain damage** without any impact to patients' skulls

# WITH **ENHANCED** (BIOMETRIC) DATA TECHNOLOGY TODAY CAN MIMIC MOST HUMAN SENSES THAT “FEEL” LIKE BIOLOGICAL AND CHEMICAL SENSATIONS (BIO EFFECTS)

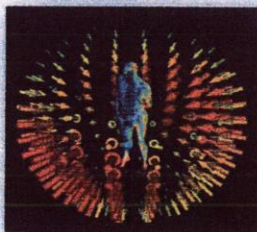

## AIRMAN SYSTEMS DIRECTORATE

### Bioeffects Division (711 HPW/RHD)

AFRL's Airman Systems Directorate is the Department of Defense (DoD) center of expertise for **directed energy bioeffects research**. Located at Joint Base San Antonio, TX, our research focuses on the interaction of laser and radio frequency energy with the body. Specific aims include understanding the mechanisms of action in order to exploit vulnerabilities for future directed energy weapons and protect warfighters. Our unique research facilities and team of experts enable us to **investigate effects at the molecular, cellular, tissue, whole organ, and full body level resulting from laser, broadband optical sources, and high power microwave sources**. Experimental discoveries help establish national and international occupational standards and support informed DoD policy decisions for fielding and use of directed energy weapons.

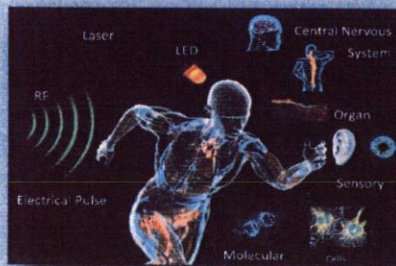

### Research Facilities

- ◆ Lasers
  - Ultraviolet, visible, near infrared
  - Ultrashort pulse, short pulse, continuous wave-long pulse, high energy surrogates
- ◆ Radio Frequency/High Power Microwave Systems
  - Direct current, radio frequency, microwave, millimeter wave, terahertz
  - Both low and high power, continuous wave & pulsed systems integrated into anechoic chambers
- ◆ High Performance Computing, Modeling & Simulation Nodes

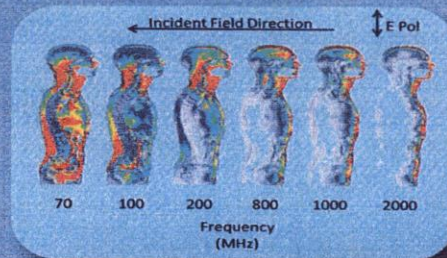

### Bioeffects & Mechanisms

- ◆ Mechanistic Response at Molecular to Organism Scales
- ◆ Neurobiological, Vision, and Behavioral Response to DE
- ◆ Supra-Threshold Response—Severity of Effects
- ◆ Discovery Science for Novel Personnel Effects

### Modeling, Simulation & Analysis

- ◆ Advanced Electromagnetic Computational Dosimetry Models
- ◆ High Performance Multi-Physics Simulations
- ◆ Physics-to-Physiology Phenomenology
- ◆ Tools for Engagement & Mission Level Simulations
- ◆ Statistical Approaches for Risk Management

### Products

- ◆ Collateral Effects/Operational Assessment Studies
- ◆ National & International Standards
- ◆ Nuclear Flash Goggles
- ◆ Modeling & Simulation Tools
- ◆ Weapon Design Specification for Laser Dazzlers, Flash Bang Grenades, Electromuscular Incapacitation Devices, Active Denial

# A LOT HAS HAPPENED IN SCIENCE AND TECHNOLOGY IN THE LAST 20+ YEARS ESPECIALLY IN QUANTUM PHYSICS, NEUROSCIENCE, AND DNA SEQUENCING

**MACHINE INTELLIGENCE**

Develop a strategic framework which leverages commercial technology and human-machine teaming to provide the force better: scalability, capacity, flexibility, and collaboration in the digital age. Efforts to advance computing development and training initiatives will give ISR analysts the time and multi-domain data they need to conduct analysis on warfighter problems.

**HIGH ALTITUDE WAY AHEAD**

The Air Force will determine the force structure and capability requirements to guide future investments in interoperable capabilities adding complexity and multi-domain dilemmas to the adversary's decision cycle.

**ISR FROM/FOR CYBERSPACE OPERATIONS**

Success in this highly contested environment requires a multi-domain ISR approach that integrates ISR From/For Cyber Operations at a speed that provides decision advantage. Providing high-fidelity battlespace awareness requires that we leverage DoD, IC, commercial, and allied cyber expertise while simultaneously implementing a revolutionary human-machine teaming model.

**DATA STRATEGY**

Advance AF ISR infrastructure and data standards to ensure AF ISR data is discoverable, accessible, interpretable, and secure. We will mature a data-based, problem-centric culture focused on a willingness to share with our partners.

**PENETRATING, PERSISTENT, AND MULTI-ROLE RPA**

Define new mission roles and capabilities, laying out a roadmap for requirements to successfully integrate those emerging mission sets across the kill chain.

**HUMAN CAPITAL**

The ISR Enterprise's culture is changing and ISR Airmen are blazing a bold path to posture it for the future fight defined by ML approaches, allowing Airmen to use human-machine teaming for more robust relational/predictive insights in the air, space, and cyber domains.

**AGILE CAPABILITY DEVELOPMENT**

Leverage Development and Operations (DevOps) environments, innovation labs, and real-world operational environments to rapidly deliver new capabilities to the field for employment with an immediate impact on ops. Acquisitions processes must evolve to become more dynamic, empowering ISR Airmen to guide and develop innovative technologies required to execute warfighting operations.

**ISR FROM/FOR SPACE OPERATIONS**

Provide enhanced persistence, resilience, maneuverability, and flexibility for multi-domain operations in the steady-state, permissive, and highly contested environment of 2030. US government-owned, allied, and commercial space systems will be used in a transformation manner to be integrated into the multi-domain ISR Enterprise.

**PARTNERSHIPS**

Our Enterprise is stronger when we share diversity of thought and technology shaped by our cultures, backgrounds, experiences, and personalities. Through partnerships, AF ISR Airmen and their partners will acquire the tradecraft and tools required to innovate at speed and scale, and posture for future challenges of tomorrow.

**PUBLICLY AVAILABLE INFORMATION**

Use Publicly Available Information (PAI) to flip the legacy paradigm of relying solely on ISR collected via exquisite DoD platforms/sensors upside down. The Enterprise will be able to more deliberately employ exquisite ISR capabilities and PAI.

## Autonomy and Artificial Intelligence

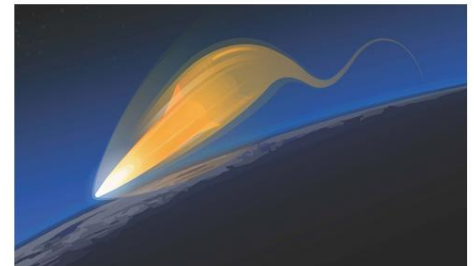

There's no doubt that on the battlefield and at home, autonomy and artificial intelligence (AI) are rapidly becoming part of our daily human experience. We are building AI systems that will keep people in control while enabling them to be safer, and increase mission success in the toughest and most unpredictable of situations.

## Directed Energy

Directed Energy systems use highly-focused energy to disable targets with pinpoint accuracy. Our engineers are at the forefront of transforming high-power laser technology developed for factories into inventive and cost-effective defense capabilities for our customers.

## Hypersonics

Going Mach 5, or over 60 miles per minute, creates a number of complex engineering and physics challenges which is why Lockheed Martin leverages expertise and technology from across the corporation to tackle these challenges with speed, agility and ingenuity. As one of the Department of Defense's highest technical priorities, our scientists and engineers are developing game-changing hypersonic solutions.

**IF THIS TECHNOLOGY EXISTS WHY WOULDN'T THEY USE IT HERE IN YOUR COMMUNITY? WHO EVEN HAS THE KNOWLEDGE OR JURISDICTION TO DO ANYTHING?**

**THE LAW ENFORCEMENT BUSINESS MODEL HAS NOT CHANGED MUCH IN OVER 100 YEARS**

**20<sup>TH</sup> CENTURY METHODS FOR THE EVOLVING 21<sup>ST</sup> CENTURY LAWS AND REGULATIONS HAVE NOT KEPT PACE WITH ADVANCES IN TECHNOLOGY**

**EVERYONE NOW IS A TARGET IN A MULTI-DOMAIN OPERATION**
