Presentation submitted to the Senate Hearing on “The State of Civil and Human Rights in the United States”

Tuesday December 9, 2014.

My name is Dr. Daniel Lebowitz. I'm a medical doctor. Over the past two years, I have worked with a Human Rights organization called Freedom From Covert Harassment and Surveillance, or FFCHS. People in this organization state that they are being targeted by an illegal and unethical government program that represents a modern version of COINTELPRO and MK-ULTRA combined. These victims call themselves **targeted individuals, or T.I.'s**.

I have worked with the leadership of FFCHS, and I have worked with the medical committee as well as with the Board of directors. As a result, I have **communicated with hundreds of self-described targeted individuals**.

Additionally, I have worked with two other activist physicians on behalf of targeted individuals: Dr. John Hall and Dr. Terry Robertson. I **have also worked with Dr. Robert Duncan, a scientist turned whistleblower, who states that he has worked on some of the very weapons systems that are used in the remote electronic harassment that many targeted individuals say they experience.**

My presentation today is entitled:

Targeted Individuals: Covert Repression in the 21st Century

OVERVIEW

To understand the Targeted Individual phenomenon, you need to understand several things about it. You need to understand the societal and political and human rights trends which allow it to occur. You need to understand what the program is. You need to understand what the goals and the purpose of the program are. You need to understand who gets targeted. You need to understand where the program came from, in other words, compare it to counterintelligence programs and unethical human experimentation of the past. And you need to understand the implications of the program, and what it means for the future. Finally, we'll take a look about what must be done about it.

STATE OF HUMAN AND CIVIL RIGHTS IN THE US: THE EMERGING POLICE AND SURVEILLANCE STATE

In the United States, in short, we are seeing the emergence of a police and surveillance state. Former **President Jimmy Carter** recently wrote in the *New York Times*, **“The United States is abandoning its role as the global champion of human rights.”** In his article, Carter points out that top US officials are now **openly targeting US citizens for political assassination, “disappearance,” unlimited surveillance, and other forms of gross human rights abuse.** Are people prepared to call a former U.S. President a conspiracy

theorist? Or has the U.S. strayed far from its roots as a democracy where rule of law and human rights are uniformly respected?

THE PROGRAM

What is the Targeted Individual program that these people are complaining of? It is many things all at once. It is a discrediting and disruption campaign, similar to COINTELPRO. In some cases (not all) it is a torture/trauma-based brainwashing and mind-control program like MK-Ultra. It is a secret form of repression, persecution and psychological warfare, carried out in the community largely by regular people, along the lines of Stasi or Zersetzen torture. It is a political abuse of psychiatry, as has been carried out in many countries as a way to torture and discredit dissidents. Finally, it is unethical non-consensual human experimentation on unwitting subjects with advanced directed energy and psychotronic weapons systems. **Overall, it represents a coming together of the most vicious and effective tools and weapons for covert harassment and political control of dissidents, activists, whistleblowers, agitators, and other so-called "undesirables" that the world has ever seen.**

What are the goals and purposes of the program? Again, they are many. **But, in a word, the neutralization of the target.** Let's start with understanding the mindset of the state. President Obama's information czar, former Harvard Law professor Cass Sunstein, co-authored a paper in 2008 which advocated that the government should "cognitively infiltrate" and "disable" those who have ideas the government finds threatening, for example, 9/11 truth activists. **Now, at a minimum, this suggests running illegal COINTELPRO-type disruption campaigns against people.** But, more interestingly, let's parse the words carefully: "cognitively infiltrate" and "disable". Cognition refers to the mind, or to thought. Infiltrate means to penetrate with hostile intent. **So, literally, this means to penetrate the minds or thought processes of so-called "troublesome" individuals, with the intent to disable them. Fascinating, in light of what targeted individuals say that they experience.**

So, more specifically, what are the goals of the program?

1. Force the target to stop "unacceptable" activity (whistleblowing, activism, exposing corruption, etc.). Silence the target both about their original activism and about their targeting.
2. Subject target to noise campaigns, swarming, colors, or repetitive behaviors as a form of harassment.
3. Attack any psychological weaknesses. Cause target to blame themselves for their targeting and as such destroy the will to fight back.
4. Create a track record of so-called "mental illness", useful for both discrediting and plausible deniability.
5. Discredit the target.
6. Isolate the target from all forms of support using secret notifications, slander, and covert harassment carried out largely by regular people.
7. Encourage the target to lose hope and lash out in suicidal or homicidal rage secondary to covert harassment, and destruction of the target's life.
8. Set target up for possible institutionalization or arrest.
9. Damage or ruin the career and/or finances. In some cases, break up the family. In

- some cases, cause the target to lose their home.
10. After breaking the target's will to fight, in some cases, attempt to change the mindset, politics, ethics of the target. Create a mindset more useful to the state. Evaluate the potential for corruption or even recruitment.
 11. **To summarize: the goal is the neutralization of the target. Exactly the goal pursued by the former COINTELPRO.**

THE TARGETS

Ok. So, who gets targeted by this program? There's a lot of overlap with COINTELPRO. COINTELPRO targeted "Perceived threats to the Established Political and Social Order". Which, in practice during COINTELPRO meant primarily those pursuing greater social and economic equality, peace activists, dissidents, so-called "unfriendly" politicians, and even non-conformists. In some cases, it can be proven that counter-intelligence operations have been undertaken against those aware of high-level criminality or wrong-doing. Like everyone else, many targets have weaknesses, foibles, flaws, problems, etc. Some have addictions. Any perceived weaknesses (manufactured, real, or exaggerated) are used viciously to aid in the discrediting of the target. Let's learn from some actual examples of people who became targets for covert operations:

1. **Thomas Drake, NSA Whistleblower: Forced out of his job, blacklisted, financially ruined, forced to defend himself against criminal charges, placed under physical and electronic surveillance.**
2. **Jean Seberg.** Actress and civil rights activist. Supporter of the Black Panther Party. Experienced FBI **Surveillance, harassment, stalking, break-ins, intimidation, defamation and discrediting.** Victim of a false FBI story that she was pregnant by a Black Panther Party member, while married to a white husband. The stress of this caused premature delivery of her baby, which died at 2 days of age. The baby was white. Eventually committed suicide.
3. **Arnold Lockshin.** A Cancer researcher and supporter of socialism. **Experienced surveillance, harassment and threats by strangers, break-ins, psychological warfare, implied death threats through the 1970's and 1980's. Eventually sought asylum from Russia and was immediately fired, blacklisted, accused in retrospect of mental instability and deteriorating work performance. Notably, reported that even his children's classmates and his own father had been brought into a Stasi-like campaign against him and his family.** Wrote a book about the ordeal in 1988 called "Silent Terror: One family's history of political persecution in the US." The book was never published or distributed in the US. On the web: ArnoldLockshin.Wordpress.com. By the way, his work performance and mental stability in Russia are apparently just fine.
4. **Adrian Schoolcraft.** Blew the whistle on corruption, wrongful arrests, arrest quotas, and the stop and frisk program within the NYPD in 2009. **Received on the job harassment and was shunted to the NYPD psychologist. Within 3 weeks after reporting corruption he was involuntarily committed to a psychiatric ward, handcuffed to a bed and prevented from using a telephone. He was portrayed as paranoid during his hospital stay, which lasted 6 days. After discharge, he was suspended from the force without pay. Tapes he had made were eventually reported by the New York Times and others and he has been largely vindicated.**
5. **Dr. Lawrence Doerr.** Orthopedic surgeon. As reported in the NY Times, wrote an

open letter to fellow surgeons in 2008 warning about a flawed hip prosthesis.

Subsequently became the target of a whisper-campaign that questioned his skills and competence as a surgeon.

6. **Russell Roderick.** Insulted a powerful, politically connected firm by refusing continued employment. Unclear if he was aware of high-level wrong-doing. Has been the target of a 25 year, multi-national campaign (you will find that these programs are multi-national and follow targets wherever they go) including slander, character assassination, allegations of incompetence, paranoia, drug-addiction, sexual deviance, and being "a deranged, suicidal maniac." Has experienced blacklisting, financial devastation, isolation, stalking and overt surveillance, street theater, telephone/computer and mail tampering, Stasi-like manipulation of people into a campaign against him, death threats, intimidation, harassment, and a shut-down of all avenues of support. He refers to this as Zersetzen torture. On the web: Zersetzen.wikispaces.com.
7. **Greenham Common Women's Peace Protestors.** In the 1980's, were protesting the presence of US cruise missiles at an English air force base. Came under microwave weapon attack in 1984. Scientists from Electronics Today demonstrated the presence of electromagnetic waves. Dr. Robert Becker, twice nominated for the Nobel prize, found their symptoms were consistent with exposure to a microwave weapon. Every time a cruise missile convoy was ready to drive by, these women were experiencing severe headaches and unbearable fatigue, etc.
8. **Andy Lewis and friends.** A group of former British soldiers. Became targets of full-on gang stalking in 1996 after attempts to draw attention to what they viewed as an unethical experimental vaccine program that had been given to Gulf War soldiers in 1991. These men have experienced blacklisting, covert harassment, directed energy and psychotronic weapons attacks, overt and covert surveillance, stalking, secret notifications, etc. They have made two excellent websites: targeted-individuals.com and gang-stalking.com.
9. **A long list of 9/11 truth activists** have reported being targeted with electromagnetic weapons and death threats. Some have died under suspicious circumstances. US Army Major Doug Rokke, PhD physics from University of Illinois, former head of the US Army depleted uranium cleanup project after Gulf War I, says these weapons are very real, and commonly used in military circles. He has described how he personally used such weapons on a regular basis while training with Special Forces at US Army facilities: "We had them van-mounted, truck-mounted, plane-mounted, and hand-carried. We would go around zapping each other for fun. This was during exercises, or sometimes just as a practical joke." Rokke further stated that, based on his firsthand knowledge of US military mind-set and capabilities, 9/11 truth activists have undoubtedly been targeted by exotic non-lethal (and lethal) weapons. Remember again Cass Sunstein, who openly advocated cognitive infiltration and disabling of 9/11 truth activists. Is he talking about psychotronic weapons attacks?
10. **Jill Hansen.** Professional surfer, model and entrepreneur. She received wide acclaim for her performance in a TED speech in 2010 about her spiritual values and altruistic beliefs, Entitled "Open Mind, Open Heart". In the talk she espouses values including compassion, honesty, integrity, generosity, belief in God, charity, hope, faith and love. She concludes by stating that the world would be a more beautiful place if we all thought this way. Within weeks after this talk, which received a lot of publicity, she found herself the victim of stalking and electronic harassment. Fast forward

a few years. Unfortunately, In May 2014, she was charged with attempted homicide for allegedly running over a woman intentionally with her car. TI's report that attempting to get them to act out inappropriately with strangers is a common protocol. A couple interesting facts: 1) **none of the news stories mention that she considered herself a TI and 2) Interestingly, The local Neighborhood Watch Group's 500 members had been alerted about Hansen—supposedly for reckless driving. A representative of the group was reported as saying, "We need everybody to be on the lookout for her, it's that scary."** So here we have someone reporting being a victim of organized stalking, and it turns out that—HELLO—there was a group of at least 500 people deliberately on the lookout for her.

11. **Ted Gunderson.** Worked for the FBI from 1950 – 1979. Former head of the Los Angeles FBI, where he was in charge of 700 personnel and had a budget of over 22 million dollars. **In 1979 he was one of a handful interviewed for the job of FBI director, which ultimately went to William H. Webster.** He retired and started a private investigation firm. He became a whistleblower and eventually filed an affidavit in support of attorney and targeted individual Keith Labella in his FOIA request from the FBI regarding gang stalking. Gunderson explained: **"It is my professional opinion based on information, knowledge and belief that the information sought by Mr. Labella in this FOIA suit regarding gang stalking...reasonably describes an ongoing, active, covert, nationwide program that is in effect today and...has been in effect since at least the 1980's...[and] has increased in scope, intensity and sophistication by adapting to new communications and surveillance technology."** As a whistleblower, Gunderson was himself targeted. He experienced whisper campaigns, surveillance, phone tapping, computer hacking, poisonings, group stalking, aerial stalking and more. **Stated that based on his experience, victims are targeted for a variety of reasons including government and corporate whistleblowers, parties to financial and employment disputes, parties to marital disputes (usually divorced women), and even jilted paramours. Journalists covering controversial issues, and, even attorneys and private investigators representing unpopular clients or interests.** Gunderson's affidavit can be viewed on the Internet, and in my opinion, is a fascinating read.
12. **William Binney-** An NSA whistleblower. **Has stated he is well-aware of mind control technologies.**
13. There has been a steady increase of **mass shootings** every year since 2000 from 5 per year until now, about 16 per year. Many of them were complaining of electronic harassment and/or organized stalking, stating that this led them to attack. This is being largely ignored and/or covered up by the media. **Does a faction of our government actually want gun violence in the US, perhaps as a pretext to reversing gun rights, or even individual rights in general?** Let's discuss 3 mass shooters.
14. **Jiverly Wong-** Chinese Immigrant. Reported being targeted with covert harassment for 18 years. Reported experiencing: stalking, harassment, chemical attacks, nausea, shortness of breath, job harassment and job loss, spreading of rumors, phantom touching at night while sleeping, home entry and theft of funds from his home, vehicular stalking and harassment, electronic body shocks. Became a mass shooter of 14 people including himself. Blamed his harassers for the killings. **Paranoid? Or victim of a high-tech covert operation that he could not even begin to understand? Let's not forget that some goals of COINTELPRO included trying to get people to commit suicide (e.g. MLK) or trying to get people to commit serious crimes (e.g. Black Panther Party members) in order to discredit and**

destroy them.

15. **Aaron Alexis**- Ex-Navy veteran. Navy yard shooter. Contacted FFCHS stating he was under ELF weapons attack and was being stalked and surveilled, and he believed this was at the hands of the Navy. Interesting things about his case. **1) Although he corresponded with FFCHS, thus identifying himself as a TI, and stating his belief that the Navy was attacking him, the FBI after investigating and speaking with FFCHS Board members, insisted that he was a random shooter with no motive.**

2) A heavily armed SWAT team was in the vicinity of the Navy Yard when Alexis started his shooting rampage and was on site within 5 minutes. Inexplicably, they were ordered to stand down and leave the area. The shooting rampage subsequently went on for 45 minutes.

16. **Myron May.** A promising, young black attorney. Worked first for a well-known law firm and subsequently trying to help disadvantaged children. Cared about people and about God. Reported being recently targeted with directed-energy weapons and law enforcement harassment. Decided to draw attention to the abuse by mailing packages of information to 10 people, shooting people, and "suicide by cop". **He made his goal clear by ending his letter saying, "what targeted individuals need more than anything is media attention." These packages were confiscated by Federal agents.** His suicide note described, "financial, emotional, and psychological pain....a living hell" inflicted upon him as a targeted individual. He stated: **"Our government is able to capitalize on [the] lack of knowledge among the general population to curb sentiments toward questioning the mental health of targeted individuals rather than admitting the truth: that there is a system of covert torture of ordinary innocent citizens that is happening within our borders."** He believed there was no hope for him and so he stated, "Consequently, I am making a sacrifice so that others in my same position might have a chance at a normal, harassment-free life." **He shot three people. None of them died. I wonder if, even when driven to extremes by secret government torture, whether he was still too moral to bring himself to kill...**

Ok, so we know who it happens to. We know this is the most sophisticated take-down program the world has ever seen. So, where do all these tactics and techniques come from? Well, as I mentioned before, a look at historical programs is highly instructive here.

RELEVANT HISTORY: COINTELPRO, MK-ULTRA, STASI / ZERSETZEN TORTURE

So- COINTELPRO. Known tactics included: Discrediting, smearing, character assassination. Covert campaigns to destroy interpersonal relationships, Harassment, Conspicuous surveillance (also known as stalking); anonymous letters and phone calls, IRS tax audits, legal harassment, Manipulation or strong-arming of parents, employers, landlords, school officials and others to create problems for targets. Threats, intimidation, surreptitious home searches and "black bag" jobs, vandalism, Constant surveillance.

MK-ULTRA features and goals included: Create a subject who is easier to control and manipulate, create programmed assassins, develop more effective means of torture and interrogation, break down the personality of the subject and insert new belief systems, ethics, politics, personality traits; performed on unwitting and unwilling subjects; manipulate mental states and alter brain function; surreptitious drugging; isolation; verbal and sexual abuse; various forms of torture employed; promote illogical thinking and impulsiveness in the subject

so that they will be discredited in public; attempt to produce amnesia for periods of time; surreptitious production of shock or confusion in subject over extended periods of time; attempt to alter the subject's personality to become dependent on the tormentors; attempt to lower the subject's ambition and work efficiency; attempt to impair eyesight and/or hearing; attempt to activate specific behavior by remote means.

Stasi tactics, also known as Zersetzen torture, included such features as: secret persecution, secret methods of control and manipulation, involved even the personal relationships of the target, extensive use of unofficial collaborators--also known as regular people; used the State's influence to turn public and private institutions against the target, psychological attack intended to deprive the target of the ability to mount hostile political action, often causes irreversible damage to the target, attempt to gain influence over the target in such a way that undesirable attitudes and beliefs would be slowly changed to more preferable traits over time, Attempt to cause fragmentation, paralysis, disorganization and isolation of target, Attempt political and ideological "re-education", used in situations when judicial procedures are not convenient for political reasons, a.k.a. extrajudicial punishment, attempts to frame or entrap targets, slander/character assassination involving some true and some false, but always degrading information, orchestrating a series of social and professional failures in order to damage self-confidence, creation of doubts about future, stimulation of mistrust or paranoia, exploitation of target's personality weaknesses, addictions etc., shaming due to the spreading of rumors to those around the target, overt and covert surveillance, intercepting mail, calls, etc., tampering with property and vehicles, poisoning the food and tampering with medications, entering the residence and leaving traces of evidence in order to threaten or intimidate the target by adding removing or modifying objects.

The items on these lists will sound very familiar to targeted individuals. Nearly all of them apply to the current program. And nearly all of them are reported by Targeted Individuals. I have no reason to not believe them. Now, add in the use of advanced directed energy and neuro-weapons, and you have a very potent takedown program.

THE WEAPONS

Ok so at this point we have a pretty good understanding of the program. But there's one more thing that needs to be understood about this program. The advanced weaponry that is being used.

Evidences/Examples:

- 1) **The Moscow Signal:** low-power microwave beams were directed into the US embassy for more than two decades, from 1953 until 1976. Discovered in 1962, US scientists studied the signal until the 1970's before finally telling the diplomats it was there, and offering them hazard pay. Many got sick, some died. Was not exposed to the public until 1976 when unearthed by an investigative reporter. This led to DoD's ARPA Project Pandora
- 2) From 1965 through to 1970, Defense Advanced Projects Research Agency (DARPA), with up to 70-80% funding provided by the military, set in motion operation **PANDORA** to study the health and psychological effects of low intensity microwaves with regard to the so called "Moscow signal". **This project was quite extensive and included (under US Navy funding) studies demonstrating the ability to: induce heart stoppage, create leaks in**

the blood brain barrier, and production of auditory hallucinations. Nervous system function could easily be degraded with properly pulsed signals. Memoranda of Richard Cesaro, Director, DARPA, confirmed that the program's initial goal was to "discover whether a carefully controlled microwave signal could control the mind." Cesaro urged that further studies be made "for potential weapons applications." This was 1970, and very specific neurological and physiological weapons capabilities of microwaves had already been recognized.

3) **Jose Delgado**—the scientist who stopped the charging bull by remote control. Dr. Jose Delgado's secret work in Project Pandora was directed towards the creation of a "psycho-civilized" society. In his paper "Intracerebral Radio Stimulation and recording in Completely Free Patients", using radio waves, Delgado observed that: "Radio Stimulation on different points in the amygdala and hippocampus in the four patients produced a variety of effects, including **pleasant sensations, elation, deep thoughtful concentration, odd feelings, super relaxation, colored visions (hallucinations), and other responses.**" Speaking in 1966, Delgado asserted that his research "supported the distasteful conclusion that motion, emotion and behaviour can be directed by electrical forces and that humans can be controlled like robots by push buttons. Delgado stated that EM weapons were "more dangerous than atomic destruction." "With knowledge of the brain, we may transform, we may shape, direct, roboticize man. I think the great danger of the future is that we will have roboticized human beings who are not aware that they have been roboticized." He created a brain transponder that was **IN FACT** used to roboticize human subjects.

4) **Dr Ross Adey**, formerly of the Brain Research Center at the University of Southern California, worked on the CIA's infamous Pandora project. His research involved inducing of specific behavior modifications by electromagnetic means. In his pioneering work, **Dr. Ross Adey determined that emotional states and behavior can be remotely influenced merely by placing a subject in an electromagnetic field. He also demonstrated that EM radiation, properly modulated and pulsed, can induce calcium efflux events to interfere with brain's function---the so-called "confusion weaponry".** Again, this is by 1970.

5) **Lawrence Pinneo**, a neurophysiologist and electronic engineer working for Stanford Research Institute (which is a leading military contractor), "**developed [in 1974] a computer system capable of reading a person's mind. It correlated brain waves on an electroencephalograph (EEG) with specific commands.**

6) **Dr. Eldon Byrd**, a Navy medical engineer with a graduate degree from George Washington University, worked on the Polaris weapon system as an engineer, worked for Naval Surface Weapons Office, **was tasked in 1980- 1981 by the US Marine Corps as Project manager to develop non-lethal electromagnetic weapons for purposes including "riot control", clandestine operations and hostage removal. Worked on ELF, non-linear magnetics.** He worked with Ross Adey, Dr. Elizabeth Roscher, Michael Persinger on the ability to entrain human brainwaves at a distance. And he said, "**We accomplished it.**" 1980. His project went dark after that. It was taken away from him. He had it confirmed from a senator—Senator Pell—confirmed for him that his project went dark. Byrd was quoted in a lecture around 2001 as saying, "**Is Mind Control Possible? Absolutely. There is a mountain of evidence.**" He went on to say that, "**Today we know there are technologies that can induce sound into the brain at a**

distance, can monitor and alter brainwaves at a distance, can alter behavior at a distance, can induce images into the brain at a distance, can target individual organs at a distance. Can disrupt the calcium ions binding on individual cell surfaces at a distance, creating pain and other effects anywhere in the body. Mind control technology exists, without a question." Less than a year later, Dr. Byrd was dead. Maybe it was a coincidence.

7) A 1980 NASA document [NASA abstract Report Number: AD-A090426, June 1, 1980] described that one can remotely create the perception of noise in the heads of personnel by exposing them to low power, pulsed microwave.... By proper choice of pulse characteristics, intelligible speech may be created. 1980. Yes, 1980.

8) For further documentation, I recommend the following webpage: <http://educate-yourself.org/mc/listofmcsymptoms05jun03.shtml>. This webpage documents that there is truly a mountain of evidence about these terrifying weapons. Some highlights include the PROVEN capabilities to induce false memories in the brain, Subliminal command implantation into the brain to modify behavior (including suppressing dissidents).

9) Finally, In July 1996, the Spotlight, a widely circulated right-wing U.S. newspaper, reported that well-placed DoD sources have confirmed a classified Pentagon contract for the development of "high-power electromagnetic generators that interfere with human brain waves."

Dr. Emery Horvath, a professor of physics at Harvard University, has stated in connection to these generators, "These electronic 'skull-zappers' are designed to invade the mind and short circuit its synapses... in the hands of government technicians, it may be used to disorient entire crowds, or to manipulate individuals into self-destructive acts. It's a terrifying weapon."

To quote José Delgado in his book Physical Control of the Mind: Toward A Psychocivilized Society, p. 116:

Individuals whose brain centers are electrically stimulated believe their evoked actions are their own ideas; their conscious mind rationalizes the evoked actions away. People experiencing this electrical stimulation aren't consciously aware of an external influence. **In summary, these weapons have the ability to mentally and physically torture people, and to influence human psychological behavior. With, or even WITHOUT the target's knowledge or awareness.**

SUMMARY OF THE PROGRAM AND ITS IMPLICATIONS

In summary, we have a program which includes the earmarks of past programs including COINTELPRO and MK-Ultra. It also uses collaboration of regular people to carry out much of the harassment, similar to Stasi or Zersetzen torture of the prior East Germany. Furthermore, it uses advanced neuro-weapons to mentally and physically torture victims from a distance--whether in their homes, workplaces, or wherever they may go. The goals of the program are many, but ultimately boil down to torture, control, discrediting, and neutralization--exactly the same goals as the prior COINTELPRO, MK-ULTRA, and Stasi or Zersetzen torture. While some victims may be chosen at random, many cases, upon examination, are shown to be

perpetrated against activists, whistleblowers, and those who have spoken out against corruption. The consequences are severe. Most targets lose their jobs, homes, and/or their families. Many end up on dangerous medications or institutionalized. Some end up committing suicide or homicide.

Of course, the implications for humanity are frightening. Is it possible we are heading toward a synthetic reality, where people's thoughts, conversations, hopes, dreams, illnesses, major life events are controlled by supercomputers and handlers, all without their knowledge? Is our society becoming one in which no-one can be trusted, with everyone spying on everyone else? With a large percentage of the population becoming government informants and spying collaborators?

Are we developing a class of people with "less" rights, who can be harassed at will, even as we all slowly have our rights eroded? If so, doesn't that sound like a totalitarian regime such as Nazi Germany?

WHAT NEEDS TO BE DONE ABOUT THE PROGRAM

Several things. First of all, **targets must speak out. Especially those who have their wits about them. This program is highly disruptive, and is specifically designed to make even the most solid citizen look as if they have become delusional.** Compounding the problem, many targets are either forced to, or willingly take powerful psychiatric medications in hopes of decreasing the severe attacks they are suffering, or to appease skeptical friends and family members. In the case of real mental illness, this should resolve the symptoms. In the case of TI's, it does not stop the torture and harassment and manipulation of their lives.

So, that leads to the next point. **If you know someone who this is happening to—don't count them as crazy. They may be a victim of this program.** Recognize that the issues they were speaking about before they got into their current situation are still just as valid now as they were before. **In fact, it was probably the very legitimacy of their issues that led powerful forces to want to discredit them so thoroughly. Remember that.**

Whistleblowers must come forward who are aware of this program.

Fearless journalists must pursue the story. It was investigative journalists who brought widespread attention to MK-ULTRA, COINTELPRO, and much of the unethical experimentation that has occurred in the USA.

Targets must come together. There is strength in numbers. Targets should never give up the fight.

Finally, Congress MUST thoroughly investigate the intelligence agencies, DOD research programs, and black operations. The targeted individual program is happening. It's not science fiction. It needs to be EXPOSED AND SHUT DOWN FOREVER. Thank you for your attention.

STATEMENT OF INJURIES

1. The hardest thing to comprehend is that people like this actually exist and most of this technology is NOT in the visible spectrum (radio waves and microwaves).
2. I believe I got targeted because my father honorably served in the Army. We didn't come from much, so I ended up enlisting in the Marine Corps for a shot at a brighter future. Poor military men are the easiest controlled test subjects since the military takes care of food, room, board, and controlled tests (active duty service). If you didn't enlist with the right occupation your chances of a brighter future are about even before you enlisted with that experience. I qualified for almost every military occupation but the one I was placed in had a 10-day training program.
3. The Business Model [page 6 diagram] is to first implant with some sort of tracker. With a security clearance you should expect to get monitored but NOT be subjected to remote "human experimentation". *You're not told but your references can get monitored as well and subjected.*
4. The concept of Controlled Effects [Containment on page 6 diagram] is to control a Target's entire environment and situation. I had a lot of friends before I enlisted but I don't fully understand why or how the technology was used on me and them to make people I considered friends to out of nowhere stop talking to me like I wronged them. Over the years this led to my current isolation [page 6 diagram cycle] and now daily attacks. *This would bother most people.*
5. Money is obviously an issue for most common people but due to my targeting I am probably one of the most educated controlled test subjects which makes me an even bigger target with my implants. Just the past 4 years alone I have lost at minimum \$3 million in the greatest bull market in history. My degree is in Finance and Economics and I have been trading for a good 20 years. With the hacking and constant daily attacks, it prevents me from buying and selling and focusing my attention on ANYTHING. Just in lost IT salary alone I lose at least \$1,000 a day.
6. I got out of the military in 2005 and I believe I have been targeted ever since. With my current level of understanding and interacting with other victims, everything I mention are common patterns: I have been sent to the hospital at least 3 times with direct energy and bio effects, loss of friends, *strange unexplained stupid occurrences*, about to be broke shortly since I can't work.
7. Since early 2019 I have been subjected to 1.5 years of daily 24/7 microwave v2k at the highest setting, 2 years of daily focused intense direct energy attacks with the occasional all day 24/7 for 3 weeks straight blitzes which are suicide attempts (during COVID lockdowns) multiple times (at least 5), still occurring daily sleep deprivation EVERY DAY FOR 4 YEARS (started waking me up every hour, then every 2 hours, now its every 3 – with 3 it is the hardest to fall back asleep and forced to stay awake and go through the day tired and sluggish), non-consensually implanted again at least 2 times that I know of, constantly hacking EVERYTHING, breaking in to my room, and car.
8. Beginning of 2022 they staged a car accident that sent my mother to the emergency room, a week or two later they attacked my elderly father and he was sent to the emergency room for around 3 weeks. This is the cause of my current isolation away from family and friends because they monitor and attack them if I am in the vicinity. *This is probably what gets most people.*
9. Enhanced Interrogation Techniques experienced with Direct Energy and Bio Effects and v2k:
beating, binding in contorted stress positions, subjection to deafening noise, sleep disruption, sleep deprivation, deprivation of food, prevented medical care (blocked communications and prevent me from working for medical insurance), waterboarding (wake up to intense induced acid reflux that suffocates me), sexual humiliation, subjection to extreme heat, confinement to small places (with no job I live in a small room)

The story told by Carl Clark will partially take your breath away. The Englishman describes how he targeted people and then became a target himself after he'd opted out. He also took part in the deployment of microwave weapons in order to torture others, after which they were later turned on him. "These criminal shenanigans need to be exposed in public so that they can be stopped." He describes below why he blew the whistle.

Interview with Carl Clark, Norfolk, England.

Armin Gross: Matters related to the secret services are usually not disclosed. You want to bring them out in the open though. Who did you work for?

Carl Clark: I worked freelance from 1980 to 2003 for various secret services. I worked for the American Central Intelligence Agency (CIA) up to 1997. I then worked for the Israeli Secret Services, Mossad and for the Anti-Defamation League (ADL), a US organisation against discrimination and defamation of Jews. I was also employed by MI 5, a subgroup of the British Secret Services. I later moved to the Police Secret Services as well as to the secret services of an investigation laboratory. I was deployed in European operations in Paris, Zurich, Berlin, Dusseldorf, Munich, Madrid, Lyon, Bilbao and Moscow.

Armin Gross: What were your main assignments?

Carl Clark: An important assignment was to infiltrate certain groups to obtain inside information about them. I would join certain groups, make friends with some of the members and then proceed to ruin their lives.

Armin Gross: What kind of groups were they?

Carl Clark: First and foremost criminal gangs and drug cartels. I provided information about the National Front, Nazis or skinheads to Israeli Secret Services. What they were interested in

were names, addresses, meeting places, projects and objectives. I tracked individual targets for the CIA.

Armin Gross: What exactly did you do?

Carl Clark: I spied on people for long periods, eavesdropped on their conversations. I also had orders to confuse or deceive them. I would therefore secretly force my way into their homes, remove some things and just move others around. I would then delete data from their computer. Or I would just drive them crazy, by following them and turning up close by either in the railway station or the bus station, etc. Otherwise, I would stage a fight in the street right in full view of the target's eyes, and many other ploys. If our orders were to put somebody under more pressure or even arrest them, I would install certain material on their computers such as child pornography, instructions to manufacture a bomb, etc.

Armin Gross: What type of individuals were you instructed to target?

Carl Clark: People who were politically relevant. Likewise, people who opposed or acted against the interests of large companies such as the pharmaceuticals. Some belonged to criminal gangs, but there were two or three targets that had nothing on them at all as far as I could make out.

Armin Gross: How many individuals did you have under surveillance in total?

Carl Clark: In the 80s it was five or six, in the 90s seven, and from 2000 to 2003, there were three. You can appreciate from the low number of targets how intensive the targeting was. One requires at least six months right at the outset to accumulate as much information as possible about prospective targets' past lives.

Armin Gross: How did you acquire this information?

Carl Clark: From the garbage can, the telephone, mail, the Internet. That sort of thing has got much easier with recent advances in technology. Bugs are no longer necessary as you can eavesdrop on mobile phones, ISDN phones or small parabolic receiving dishes nowadays. Unfortunately, the deployment of microwave weapons has, in addition, become very practicable.

MICROWAVE WEAPONS

Armin Gross: Did you also use such weapons?

Carl Clark: No. I was responsible for surveillance. Colleagues from special departments did this. However, I was at times on site when these weapons were deployed.

Armin Gross: Can you describe in more detail how the deployment of weapons took place?

REMOTE
NEURAL
MONITORING

Carl Clark: It's a bit like what takes place in a science fiction movie. People can be tracked anywhere by radar, satellite, a base station and complimentary computer programs. For example, three radar devices would sometimes be positioned in the vicinity of the target. The radar emits electromagnetic waves, some of which pick up the target and the result is then evaluated. My friends who work in the special department could then follow the target all day on their computers. This form of localising the target made it easy to deploy the weapons accurately. My colleagues could see exactly where to aim and also observe how the target reacted.

Armin Gross: What effect did the weapons have on the targets?

Carl Clark: They create heat, inner burns, pain, nausea, fear. Sometimes traces are left on the skin, but mostly not. If the targets go to the doctor, they get told everything is OK. Take into account, this was the situation ten years ago. This technology has advanced considerably since then.

Armin Gross: What is the objective of such attacks?

Carl Clark: The aim is to intimidate certain people, for example people who make a lot of noise. I myself was under attack for three years after opting out. I'm virtually sure that weapons were used against me in 2003/2004 which provoked strong aggression. I almost killed somebody on two occasions, once a neighbour who was a pleasant elderly lady.

BIO EFFECTS

ATTEMPTS TO DRIVE PEOPLE TO INSANITY

Armin Gross: Do you think it's possible to directly influence feelings by weaponising electromagnetic rays?

Carl Clark: Without doubt. We know that living organism is sensitive to electromagnetic radiation. Elementary life processes within cells function by biogenic electromagnetic oscillation. Frequencies from the exterior can damage or change these processes. There have already been far-reaching attempts at influencing body, mind and soul through frequencies within the framework of military research. It's possible to provoke fear, aggression, nervousness or forgetfulness in this way. In combination with other interventions, a target can be driven insane. For example, radiofrequency can be manipulated so that the target hears his own name on the radio or his computer shows his name time and again. Voices are also specifically transmitted to a target commenting on his activities. For example, I heard a voice in the morning after getting up which said "Get up and injure somebody."

VAK

Armin Gross: People are actually being driven to psychic extremes then?

Carl Clark: Yes, the undoubted goal is to have select people end up in psychiatric institutions. If a target seeks help by going to the police or to the doctor, they don't get taken seriously. Some doctors and hospitals actually work together with the Secret Services. Diagnostic directives permit a patient who feels persecuted or hears voices to be classified as schizophrenic.

Armin Gross: Hospitals cooperate with the Secret Services?

Carl Clark: Yes, certainly. Large companies too. That's why one lives dangerously if one carries out investigations on large companies. The American State protects large companies like MacDonald's, Coca-Cola and certain pharmaceutical enterprises. These companies also have FBI agents at their disposal for matters related to industrial espionage. The Freemasons who are widespread within the CIA also play a major role

ENORMOUS SURVEILLANCE NET

Armin Gross: Do you know in which countries individuals are under surveillance and are being assaulted by energy weapons?

Carl Clark: The USA, Germany, China, North Korea, Russia, France and England, normally without the official knowledge of the particular government. But unofficially, I believe that government personnel must be involved in some way or know something about the goings-on.

Armin Gross: Do you know how many people are under surveillance?

Carl Clark: There are about 5,000 in England under surveillance and about 15,000 overseeing the operation. Apart from the large Secret Service agencies, there are 300 or 400 minor Secret Service agencies which were formed by former policemen or former Secret Service agents. They have permission from the Home Office to spy, take photographs and procure information. Their employees are well paid.

ONE ORGANIZATION
PER AGENCY

Armin Gross: Was it a problem for you to switch from one Secret Service agency to another?

Carl Clark: No. It was always a positive move from my new employer's viewpoint as I could always provide information to him about my previous Secret Service agency. The large Secret Service agencies mistrust each other totally. I earned more money as a result.

OPTING OUT

Armin Gross: Why did you opt out?

Carl Clark: I saw that what I was doing was wrong. The last two targets that were allocated to me had done nothing. They were not political, quite normal, nice people, not criminal or economically dangerous. The only reason I could come up with for them having been selected as targets was their DNA or their blood. There has recently been a lot of research done in this area. The DNA is associated with the finest details of our character. The Human Genomes Project

ENTRAINMENT

between 1993 and 2004 analyzed all chemical base pairs which make up human DNA, also collecting the genetic data of people from isolated communities in danger of extinction (Human Genomes Diversity Project). The results were then all compared and correlated. Our employers were always very keen on DNA analyses of the people under surveillance. It was always one of our most important tasks in the initial period of surveillance to organize DNA or blood analyses of these individuals.

Armin Gross: You've already mentioned that opting out in 2003 caused you problems. Can you give a few examples?

Carl Clark: I was once followed by a helicopter through the night as I drove a truck 3,000 miles to deliver packages. As I walked along an alley, I was attacked by a man who struck me a blow. Then on another occasion, somebody removed three connections from my engine on the motorway causing the engine to get dislodged and fall out of its casing. On another occasion as I drove a truck with a three-ton load, two of my tyres suddenly exploded. When the police arrived, they stated they'd never witnessed anything like it. Then there was the time when I was followed over a great distance whilst driving. It made me so angry that I brought my car to an abrupt halt, grabbed my baseball bat and got out of the car. Three cars which were tailing me suddenly took off in reverse gear at great speed. In normal circumstances, they would have reported my behaviour to the police, but these did not. On another occasion, I was sent three people who were supposed to strike up a friendship with me in order to spy on me. As I knew they were listening in on my telephone conversations, I stated loudly on the telephone to somebody that I planned to kill the people who had wormed their way into my life. The three individuals disappeared from the scene altogether after that.

Armin Gross: And what's the current situation? Do you think you are still being targeted?

Carl Clark: Of course. I have also found out that the secret services wish to know why I flew to Germany.

Armin Gross: Are you not then living dangerously at present?

Carl Clark: I am prepared to stand up to them. They also know that I know a lot about them, and that I intend to do something about their violations or breaches. I have friends in special units, people in Afghanistan and in Iraq that support me.

Tips for Victims of Surveillance.

Armin Gross: Have you any tips for people who feel they are under surveillance?

Carl Clark: It's a good idea to avoid the use of certain terminology in emails such as "government" or "mind control," etc., because digital surveillance seeks out key, sought-after vocabulary. It's also an idea to check out whether anyone's forced their way into your home. Intruders often deploy anaesthetic gases sprayed through the letter box on a door for example

before they break in during the night. You'd just wake up in the morning with a metallic taste in your mouth. If cars behave in a strange way, you should take note of the registration numbers. If you receive letters you don't recognise or expect, they should be wrapped in aluminium foil. There are special measuring devices to detect high frequency rays in the home.

Armin Gross: Do you know of any other whistleblowers who have related stories similar to yours?

Carl Clark: Up to now, no. But I hope that there will be more who are prepared to go public in the future.
