

UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF PENNSYLVANIA

HUMAN FREE WILL

v. JOHN DOE AGENCY, ET AL. et al

Civil Action No. 22-4394

STATEMENT ON ELECTRONIC WARFARE

Electronic Warfare (EW) – any action involving the use of the electromagnetic spectrum or directed energy to control the spectrum, attack an enemy, or impede enemy assaults.

- The purpose is to deny (hacking, jamming, spoofing **COMMUNICATIONS** are techniques used)
- An element of Information Warfare (closely linked to Psychological Warfare)

Electromagnetic Spectrum (EM) – if you sense anything that means you are receiving spectrum signals

- The human brain is basically a receiver and interprets the full EM spectrum in various ways
- Visible light is only a small part of this naturally occurring spectrum (not visible - microwaves)

“It is impossible to microwave irradiate the body without an effect” – Barrie Trower

WHO HAS THE ABILITY TO CONDUCT ELECTRONIC WARFARE?

On 6/14/2022, the State of Pennsylvania had a civil action hearing: HUMAN FREE WILL v. RCN & SERVICE ELECTRIC. The goal was to get off a private network I was routing to on the first hop (only a Network Engineer or Technician can do this). As a senior level Cloud Engineer I wasn't considered an Expert Witness and my case was dismissed and nothing was done.

Being on an unknown private network I experience:

- Security cameras get turned off remotely
- EVERYTHING I DOWNLOAD CAN'T BE TRUSTED
- Denial of Service attacks that prevent me from doing anything online (like work)
- EVERY WEBSITE I VISIT CAN'T BE TRUSTED (provide a brief example with PACER)

On 11/3/2022 HUMAN FREE WILL filed this federal civil action to tie in the entire business model while continually getting ALL MY ELECTRONICS hacked and personally getting attacked with FULL SPECTRUM weapons positioned somewhere in my vicinity. The goal is to eventually assist other fellow Targeted Individuals and educate leaders on the latest in science and technology that probably is not even commercially available; but used on the general public until something gets done to stop them.

A TRUE COPY CERTIFIED FROM THE RECORD
DATED: 11/14/22
ATTEST:
DEPUTY CLERK UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF PENNSYLVANIA

Electronic Warfare involves Information Operations (Fake News) and Plausible Deniability (No Accountability). Most Targeted Individuals will blame someone they know. Others will blame some part of the government: a popular and well deserved ones are the military, security, and intelligence agencies (Secret Services). Other countries do it on our home soil and they go unhindered with the help of the above. People don't realize that private companies do it as well (called a competitive advantage). Everyone will blame everyone else (also impersonate each other) to get away eventually. The ONLY THING FOR SURE is that this is **NOT CHEAP**.

When you think of Electronic Warfare the main goal is to impede the enemy (via hacking, jamming, rerouting) with electronic means. **EVERYTHING ELECTRONIC CAN BE HACKED**. The Electromagnetic Spectrum involves electricity and magnetism and other stuff people can't see. The thing MOST PEOPLE don't know is that the human body operates on electrical signals; which means humans can be hacked as well (provide ROBO ROACH as something to ponder).

Since filing this federal civil action I continue to experience:

- Even more harassment (gang stalking but kind of more friendly now – I wave hi)
- Daily sleep deprivation via direct energy and bio effects weapons near by
- 6 known break ins and the ONLY thing I can verify is my printer doesn't work
- Mail continues to go missing or comes days late (unable to sign up for alerts)
- My print Wall Street Journal tends to go missing when the market drops
- Had to take out a second loan to continue this fight (and pay bills and rent)
- Continue to experience intermittent use of my cell phone and internet
- ***Having a hard time getting to Philadelphia for legal and servicing assistance***

The main goal of this statement is to report what has been going on since filing. With all my electronics somehow not working when I need it, I now find myself in the public library typing this up. I will continue this good fight and try to rush submitting what I have before it goes missing. 4 YEARS OF THIS EVERY SINGLE DAY. Usually people consider us Targeted Individuals as "crazy" (easier to discredit). If you did your own homework and realized there actually is an industry; people would lose respect for what some people actually do for a living (especially to children). The goal is to be left alone so I can move on with the remainder of my life. To accomplish this, I need to remove all of the non-consensual implants I have accumulated throughout the years working in a government capacity (very appreciated).

"Rendition – the market approach – outsources our crimes, which puts us at the mercy of anyone who can expose us, makes us dependent on some of the world's most unsavory actors, and abandons accountability. It is an approach we associate with crime families, not with great nations."

- Phillip Bobbot, **Terror and Consent: The Wars for the Twenty-First Century (2008)**,
"One could get the worst of both worlds: national responsibility for acts as to which the agents we have empowered are unaccountable."

Step 1: Mobile device validation

The Postal Service supports Account Recovery with Short Message Service (SMS). To be able to recover your usps.com account by receiving a temporary password in a text message, we must first validate your mobile device.

* indicates a required field

To begin the validation process, enter your mobile number below and click the "Generate Code" button. We will then send you a text message that contains a validation code, which must then be entered on the next screen to complete device validation.

Mobile (U.S. Only)

3475593880

Please note that only domestic US & Canadian phone numbers are supported for Account Recovery at this time.

Cancel

Generate Code

We are unable to process your request at this time.

Make sure your cellular service plan and mobile device support text and data message delivery. The Postal Service provides SMS texting free of charge, but your carrier's standard messaging and data rates apply.

Message delivery speed and availability may vary by location and by mobile service provider. Other factors can influence how quickly you receive your message, including the cellular signal in your location.

For additional information, please see the [Terms & Conditions](#) and our [Privacy Policy](#).

Cockroach

Are you a teacher or parent that wants to teach a student about advanced neurotechnologies? You are in luck! We are excited to

announce the world's first commercially available cyborg! With our RoboRoach you can briefly wirelessly control the left/right movement of a cockroach by microstimulation of the antenna nerves. The RoboRoach is a great way to engage with neural microstimulation, learning, and electronics!

The RoboRoach Bundle comes with a complete surgery kit that gives you everything you need to add the RoboRoach backpack to your cockroach.

Method Online Certificate Status Protocol (OCSP)

Location <http://cacerts.digicert.com/DigiCertTLRSASHA2562020CA1-1.crt>

Method CA Issuers

Certificate Policies

Policy Certificate Type (2.23.140.1.2.2)

Value Organization Validation

Qualifier Practices Statement (1.3.6.1.5.5.7.2.1)

Value <http://www.digicert.com/CPS>

Embedded SCTs
